(Seal) F. K. B. STEWART Secretary

Dated at Toronto,
this 1st day of
April, 1952.

AGREEMENT FOR MARKETING THE 1952 CROP OF SUGAR-BEETS FOR PROCESSING

Under the South-Western Ontario Sugar-Beet
Growers' Marketing-for-Processing Scheme

This Agreement made the 18th day of February,
1952,

BETWEEN:

W. Essery, E. King and V. Robinson, appointed
by the local board, members of the Negotiating
Committee called the Grower-Members,

AND:

B. E. Easton, A. W. McIntyre and W. H. Punched,
appointed by the processors, members of the
Negotiating Committee called the Processor-
Members.

Under *The Farm Products Marketing Act* and the
Regulations, and subject to the limitations thereof,
the Grower-Members and the Processor-Members
agree as follows:

1. (1) MINIMUM PRICES for sugar-beets produced in the area during the year 1952 and purchased by a processor and delivered by truck or wagon to a plant opened by the processor for processing sugar-beets are for the percentage of sugar in sugar-beets in column 1,

(a) where the average net return obtained by the processor for sugar is \$8.00 a hundred pounds, the price a ton designated in column 2,

(b) where the average net return obtained by the processor for sugar is \$9.00 a hundred pounds, the price a ton designated in column 3, and

(c) where the average net return obtained by the processor for sugar is \$10.00 a hundred pounds, the price a ton designated in column 4,

of Schedule 1:

SCHEDULE 1

PERCENT- AGE OF SUGAR IN SUGAR- BEETS	AVERAGE NET RETURN FOR EACH 100 POUNDS OF SUGAR OBTAINED BY THE PROCESSOR		
	\$8.00	\$9.00	\$10.00
COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4
	Price a ton of Sugar-Beets	Price a ton of Sugar-Beets	Price a ton of Sugar-Beets
13	\$9.80	\$10.75	\$11.70
14	10.60	11.65	12.70
15	11.40	12.55	13.70
16	12.20	13.45	14.70
17	13.00	14.35	15.70
18	13.80	15.25	16.70
19	14.60	16.15	17.70
20	15.40	17.05	18.70

(2) Where sugar-beets are delivered to a weigh station, the price a ton shall be 75 cents less than the price a ton designated in Schedule 1.

(3) For any combinations and fractional parts not designated in Schedule 1 the price a ton of sugar-beets shall be increased or decreased in proportion, provided that, if the average percentage of sugar in the sugar-beets delivered by a grower is less than 13%, the price a ton shall be computed on a percentage of sugar in the sugar-beets of 13%.

(4) Where the total weight of sugar-beets delivered by all growers to a processor during the year 1952 exceeds 300,000 tons, the price paid to every grower for all sugar-beets received and accepted by the processor shall be 18.8 cents a ton more than the prices designated or determined in subsections 1, 2 and 3 of this section of the Agreement.

(5) The prices in Schedule 1 are based upon an extraction of sugar expected by the processor, in the following amounts per ton, for sugar in the sugar-beet of: 13 per cent—190 pounds; 14 per cent—210 pounds; 15 per cent—230 pounds; 16 per cent—250 pounds; 17 per cent—270 pounds; 18 per cent—290 pounds; 19 per cent—310 pounds; 20 per cent—330 pounds and to the extent that the actual average extraction is more or less than the extraction of sugar expected by the processor above referred to, then the

prices in Schedule 1 shall be increased or decreased in order that the grower and the processor shall share equally in the results of such difference between the actual average extraction and the extraction of sugar expected by the processor.

2. The minimum prices for sugar-beets designated or determined by section 1 of this Agreement includes the grower's share amounting to 50 per cent of an estimated total return of \$2.777 for each net ton of sugar-beets paid for by the processor from the sale of dried beet pulp and molasses, and to the extent that the actual net return to the processor for dried beet pulp and molasses is more or less than the estimated total return herein mentioned, every variation of one cent (1c) more or less from the estimated total return shall result in an increase or decrease, as the case may be, of one-half cent ($\frac{1}{2}$ c) in the price a ton designated or determined by section 1 of this Agreement, with fractions in proportion.

3. On sugar-beets delivered by a grower to a weigh station, the processor shall pay no charges other than railway freight charges computed on the gross weight of sugar-beets received and accepted by the processor at the rate in effect at the time of the shipment, provided that if such rate exceeds \$1.25 a ton, the excess shall be charged to the account of the grower.

4. (1) The net return to the processor for beet sugar, dried beet pulp and molasses shall be computed by the processor whose books and records shall be examined by a firm of Chartered Accountants who shall confirm or correct the computation and issue a certificate showing the total net return to the processor for beet sugar, dried beet pulp and molasses.

(2) The certificate of the firm of chartered accountants mentioned in this section of the Agreement shall be accepted and be binding upon every grower and processor.

5. Where a grower pits sugar-beets on the order of a processor, he shall be allowed a minimum of \$1.00 a ton in addition to the minimum prices designated or determined by the afore-mentioned sections of this Agreement.

6. (1) Initial payments by a processor to growers for sugar-beets received and accepted by the processor shall be made on the 15th of each month for all sugar-beets delivered in accordance with this Agreement up to and including the 20th of the preceding month and shall be at the highest rate per ton that the processor deems to be justifiable taking into consideration anticipated production of and returns from the sale of sugar, dried beet pulp and molasses.

(2) A further payment shall be made on or before the 28th of February, 1953, and shall be at the highest rate per ton that the processor deems to be justifiable.

(3) Provided that all the sugar, dried beet pulp and molasses from the 1952 crop are not yet sold, a further payment shall be made on or before the 31st of May on the following basis: according to the prices in Schedule 1 on the full amount of the net returns from sugar, dried beet pulp and molasses actually sold and paid for and on 85% of the processor's estimated net returns from sugar, dried beet pulp and molasses unsold.

(4) Final settlement shall be made forthwith after final net returns are received and the certificate of the chartered accountants issued in accordance with section 4 of this agreement, provided however, that the processor shall have the right to deduct from any payment due to any grower any indebtedness owing by the grower to the processor on any account.

(2) In all cases for payment provided by subsection (1) of this section the processor shall be entitled to deduct from the first payment or payments due by him to the grower thereunder all moneys owing to the processor by the grower to such date.

(3) The final payment of any moneys due and owing to a grower for tomatoes purchased by a processor from a grower shall be made on or before November 15th, 1952.

QUALITY STANDARDS

2. The provisions of *The Farm Products Grades and Sales Act* respecting grades for tomatoes for processing shall apply to every contract for the purchase of tomatoes.

3. (1) The processor may reject any graded tomatoes not equal in quality to 50 per cent of No. 1 grade or over 10 per cent below No. 2 grade as specified in the Regulations of *The Farm Products Grades and Sales Act*.

(2) Accurate records shall be kept by the processor for all rejections and shall be made available, on request, to the Board.

4. (1) The processor may reject any ungraded tomatoes not equal in quality to 50 per cent of No. 1 grade or over 10 per cent below No. 2 grade as specified in the Regulations of *The Farm Products Grades and Sales Act*.

(2) Accurate records shall be kept by the processor for all rejections and shall be made available, on request, to the Board.

5. No processor shall reject or refuse to accept delivery of any load of tomatoes that complies with the requirements herein set forth when such load has been contracted for and purchased on a grade basis and has complied with the particular grade contracted for or when such load has been contracted for and purchased with no grade specified and has complied with the requirements and conditions as herein set forth.

GRADING

6. All tomatoes purchased and received for processing on a graded basis during the year 1952 shall be graded by Inspectors appointed under *The Farm Products Grades and Sales Act*.

7. As the cost of grading tomatoes purchased for processing during the year 1952 will be 20c per ton

for each ton or fraction thereof, this cost shall be shared equally by the grower and the processor at the rate of 10c per ton for each ton or fraction thereof.

8. For the purpose of paying the grower's share of the cost of grading tomatoes the sum of 10c per ton for each ton or fraction thereof received by a processor shall be deducted by the processor from the moneys owing the grower for all tomatoes purchased and received by the processor during the year 1952.

9. The processor shall forward to the Fruit Branch, Ontario Department of Agriculture, Toronto, Ontario, the sum of 20c per ton for each ton or fraction thereof of tomatoes received by him during 1952 on or before November 15th, 1952.

TERMS OF CONTRACT

10. The provisions of this Agreement shall apply to and form part of every contract entered into between a processor and a grower for the purchase of tomatoes produced in Ontario for processing during the year 1952.

11. Tomatoes produced in Ontario by any grower for processing in Ontario shall be sold and purchased on an acreage basis by a written contract between the grower and a processor.

12. Each processor shall forward to the local board a list of the growers who have entered into contracts with him together with the acreage contracted for not later than May 31st, 1952.

13. In every contract where the grower agrees to plant and deliver a specified number of acres of tomatoes to a processor, it shall be provided that the processor during the period of processing tomatoes shall accept at least 60 bushels per week for each acre of tomatoes contracted for, to be delivered if so required by the processor in instalments on the days specified by the processor.

14. Processors running strained products and changing over to processing whole-pack tomatoes or vice-versa shall give each contracted grower 48 hours' clear notice in writing, before making the change in grade requirements.

15. (1) The season shall close on or about October 5th but may close earlier at the option of the processor provided that three-fourths of the growers have either indicated that their entire crop was delivered or have made no deliveries during the preceding seven-day period.

(2) In the event the grower has tomatoes of the quality specified herein after October 5th, the processor shall have the option of purchasing same at the prices designated.

16. (1) Every contract for the purchase of tomatoes for canning may prescribe a minimum size of $2\frac{1}{4}$ inches in diameter but no minimum size may be prescribed for tomatoes purchased for any other processing purpose.

(2) Where tomatoes smaller than the $2\frac{1}{4}$ -inch minimum are processed by any processor, such tomatoes shall be paid for on the prescribed basis.

17. Every contract made between a processor and a grower for a specified number of acres shall provide that the grower may pick and sell any ripe tomatoes to any other person at any time until one week previous to the day the processor has in writing by prepaid post notified the grower that he will commence to accept delivery of the grower's tomatoes, and that the grower may sell his tomatoes to any other person after such processor has ceased to accept delivery of tomatoes from such grower.

18. (1) The processor agrees to accept delivery of contracted tomatoes at the time tomatoes are ready for processing and the processor agrees to weigh the tomatoes accurately, keep a true and accurate record of the weights and grades and furnish the grower with a duplicate, original copy of all records of weights and grades at the time delivery is made and the grower may enter the premises of the processor for the purpose of checking the weighing and grading.

(2) The weigh slips shall be signed by the processor or his duly authorised agent and one signed copy shall be retained by the grower for his permanent record.

(3) Weight tickets are to be retained by the growers for their permanent records but in the event of checking names or weights for any loads in dispute being deemed advisable growers shall produce weight tickets for inspection.

19. Every contract for tomatoes shall specify the factory or receiving station to which such tomatoes shall be delivered by the grower named in the contract.

20. No grower shall contract to deliver tomatoes to more than one processor unless the same has been mutually agreed upon in writing by the grower and the processor concerned, provided that the tomatoes being grown for each processor shall be produced on separate plots of land and identified.

21. No processor shall knowingly contract to purchase or accept delivery of any tomatoes from a grower when such grower has contracted to deliver the same tomatoes to another processor unless the grower has fulfilled his contractual obligations with such other processor or has been relieved from the same.

22. No processor or buyer shall enter into a contract with a grower after July 15th in any year unless such processor or buyer has obtained consent to enter into such contract from the local board or such other person as the local board may designate.

23. A duly appointed representative of the Ontario Vegetable Growers' Marketing Board shall have the authority to represent the grower in all matters concerning this Agreement in accordance with the provisions of the Ontario Vegetable Growers' Marketing-for-Processing Scheme.

CONDITIONS OF SALE

24. Every processor shall give the growers 48 hours' clear notice in writing and by poster placed in a conspicuous position at each factory before a plant may be closed for the season.

25. Every grower or processor shall be excused for non-fulfilment of contract caused by fire, lack of transportation facilities, inability to obtain supplies, floods, strikes, earthquakes, wind, hail, acts of God, invasion, order of civil or military authorities, beyond the control of either party to the extent that the non-fulfilment of contract has been hindered or prevented by such cause or causes.

26. No processor shall require any grower to purchase fertilizer from such processor or any agent, servant or employee of such processor.

27. (1) The processor agrees to establish a system of scheduled deliveries and to accept and receive tomatoes ordered and delivered to the factory in good condition for processing and the processor agrees that the time for waiting for unloading will not exceed two hours, provided deliveries are made on time and under normal conditions at the factory.

(2) If this is not complied with, the processor is to pay to the grower a reasonable allowance for trucking and labour costs beyond the two-hour limit.

(3) Notice for delivery of tomatoes shall be issued sufficiently in advance of the time specified for delivery to give the grower reasonable time in which to make the required delivery.

28. Where containers are supplied by the grower for delivery of tomatoes to a processor and are properly identified by name, initials or other satisfactory identifying mark, the processor shall be responsible for damage or destruction, reasonable wear and damage excepted, for such containers while the containers are in the custody of such processor, but in no event shall such processor be held responsible for containers left in the possession of the processor after December 1st in each year.

29. Where containers are supplied by the processor, the processor shall loan the grower 60 $\frac{5}{8}$ th-bushel baskets or containers of equal capacity per acre to make delivery of the said tomatoes, it being agreed that the grower shall use them only for delivery of tomatoes to the processor and shall return them within two weeks after his last delivery and that the grower shall pay the processor on or before the date of final payment for the 1952 crop twenty cents for each basket not returned prior to that date.

30. Every processor shall return to the grower an equal number of empty containers to those delivered with each load of tomatoes by the grower to the processor during the processing season.

31. (1) Disease and pest control measures may be undertaken by a processor with the consent of a grower and the cost of such control measures shall be negotiated and agreed to in writing between the processor and the grower or his representative and the charge shall not exceed the processor's cost.

(2) No processor may require a grower to accept a spraying program to control disease and pests in tomatoes as a condition of obtaining a contract to grow tomatoes for processing.

32. The cost of all services and equipment charges to the grower and provided by the processor shall be negotiated and agreed to in writing between the processor and the grower or his representative before any contract is signed by the grower, otherwise the said contract shall at the option of the grower be void.

33. Either party hereto shall have the right to cancel or request modification of the acreage contracted for on or before the 15th of April, 1952, by giving written notice by mail to the other party.

AND

B. Hyslop, C. Metcalfe and B. Ormseth, appointed by the processors, members of the Negotiating Committee called the Processor Members.

Under *The Farm Products Marketing Act* and the Regulations, and subject to the limitations thereof, the Grower Members and the Processor Members agree as follows:

MINIMUM PRICE

1. That the minimum price to be paid every grower for all sweet-corn produced in Ontario during the year 1952, purchased and received for processing, shall be at the rate of Twenty-six Dollars (\$26.00) per ton, f.o.b. factory or f.o.b. factory receiving station.

TERMS OF PAYMENT

2. (1) Every processor shall pay on request by any grower the amount of the purchase price due and owing the grower for sweet-corn delivered by the grower to the processor two weeks after each date of delivery.

(2) In all cases for payment provided by subsection (1) of this section the processor shall be entitled to deduct from the first payment or payments due by him to the grower thereunder all moneys owing to the processor by the grower to such date.

(3) The final payment of any moneys due and owing to a grower for sweet-corn purchased by a processor from a grower shall be made on or before November 15th, 1952.

TERMS OF CONTRACT

3. The provisions of this Agreement shall apply to and form part of every contract entered into between a processor and a grower for the purchase of sweet-corn produced in Ontario for processing during the year 1952.

4. Sweet-corn produced for processing in Ontario shall be sold and purchased on an acreage basis by a written contract between the grower and a processor.

5. In every contract where the grower agrees to plant and deliver sweet-corn produced on a specified number of acres to a processor the processor shall accept at least 7,000 pounds of sweet-corn for each acre contracted for during 1952.

6. No form of contract or agreement entered into between a grower and a processor shall contain any provision requiring the grower:

(a) to purchase sweet corn seed at a price exceeding thirty-five cents (35c) per pound which charge may be deducted from any moneys payable to the grower for sweet-corn produced and delivered to the processor and the amount of such deduction shall be shown on the grower's statement; or

(b) to purchase corn ensilage, and where a grower desires to purchase corn ensilage, it shall be on the basis of a stated price per ton for such ensilage.

7. Any additional cost which may be incurred as a result of a change in the factory or receiving station to which sweet corn is to be delivered as ordered by a processor shall be borne by the processor.

8. The grower or processor shall be excused for non-fulfilment of contract caused by inability beyond the control of either party to obtain necessary supplies, fire, lack of transportation facilities, floods, strikes, earthquakes, wind, hail, Acts of God, invasion, order of civil or military authorities or any external act beyond the control of either party to the extent that the fulfilment of contract has been hindered or prevented by such cause or causes.

9. The processor agrees to accept delivery of contracted sweet-corn at the time sweet-corn is ready for processing and the processor agrees to weigh accurately the sweet-corn, keep a true and accurate record of the weights and furnish the grower with a duplicate original copy of all records of weights at the time delivery is made and the grower may enter the premises of the processor for the purpose of checking the weighing. The weight slips shall be signed by the processor or his duly authorized agent and one copy signed by the processor shall be retained by the grower for his permanent record.

10. Either party to this Agreement shall have the right to cancel or request modification of the acreage contracted on or before the 1st of May, 1952, by giving written notice by mail to the other party.

11. Spraying or dusting of sweet-corn for disease and pest control may be undertaken by the processor with the consent of the grower and the cost of such control measures shall be negotiated and agreed to in writing between the processor and the grower or his representative on or before the execution of a contract but the charge made shall not exceed the processor's cost.

12. If the grower's sweet corn crop is not harvested through the fault of the processor, then the processor shall notify the grower of his inability to receive and accept the sweet-corn and to allow tests as to yield and grade to be made immediately and the processor shall pay for the grower's unharvested sweet-corn at the prevailing rate per ton for sweet-corn, less any non-incurred cost of harvesting at prevailing rates. The yield and grade of unharvested sweet-corn to be estimated and agreed upon by the grower and the processor and a third qualified person, if necessary, appointed by the Farm Products Marketing Board.

13. Every processor shall forward to the local board a list of the growers who have signed contracts together with the acreage contracted for not later than May 31st, 1952.

14. Seed delivered by a processor shall have a tag attached to each bag showing the current germination test and such seed shall be paid for in accordance with the terms of this Agreement.

15. The grower shall deliver sweet-corn covered by this Agreement to the designated factory promptly after harvest. It is agreed that high quality sweet-corn can be processed only if sweet-corn is tender and contains no mixture of varieties. It is further agreed that, once deliveries are made in accordance with the order of the processor or his representative, the processor may not reject but must accept sweet-corn and pay the grower the price set out in this Agreement.

16. When a processor furnishes a grower with machinery or other services on request, the charges for the same shall be negotiated and agreed to in writing between the processor and the grower or his representative on or before the execution of a contract between processor and grower.

17. It shall be the processors' responsibility to state the time sweet-corn is ready to pick and to establish a system of scheduled deliveries and to accept and receive sweet-corn ordered and delivered to the factory in good condition for processing and the processor undertakes that the time for waiting for unloading will not exceed two hours provided deliveries are made on time and under normal conditions at the factory. If this is not complied with, the processor is to pay to the grower a reasonable allowance for trucking and labour costs beyond the two-hour limit. Notice for delivery of sweet-corn shall be issued sufficiently in advance of the time specified for delivery to give the grower reasonable time in which to make the required delivery.

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"The Honourable the Lieutenant-Governor of the Province doth Thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:

"Mr. Speaker and Members of the Legislative Assembly:

It is now my duty to prorogue the first session of the Twenty-fourth Legislature of the Province of On-

tario. Before so declaring I express my thanks to you in the name of Her Majesty for your attention to the business of the people of the Province. Also, before proroguing this Assembly, I wish to comment upon some particular matters to which you have applied your diligent endeavour.

Many Public Bills have been given your approval and have become law. All of these measures will bring benefit to the people of the Province. The Government has had constantly before it the duty which it owes as their servants to keep the Province in the forefront of development and expansion. Some measures have come about by reason necessarily of the gravely disturbed world conditions and the need for preserving the security of free peoples. Others, of great consequence, have resulted from the need to preserve the sound principles of our economy and with that to maintain and improve the living conditions of our people and especially to increase the assistance and encouragement provided for those who, through no fault of their own, are unable to provide fully for themselves.

I wish to mention particularly a few of these measures. Legislation has been approved under which the serious problems of adequate housing may be attacked upon several fronts. The way has been cleared for the construction of multi-family dwellings in the process of redeveloping deteriorated areas in our urban centres. Improved arrangements for the construction of rental homes jointly by Municipalities, the Province and the Federal Government have been provided, under which urban centres are enabled to make available to certain of their citizens good and satisfactory homes at a cost they are more readily able to bear. Provision has also been made which will allow and stimulate the construction and acquisition of homes in the hamlets and rural areas of the Province. This provision will bring great benefit to many of our people who are engaged in agriculture, the importance of which to our people speaks for itself.

Other legislation has been approved which will encourage our many younger farmers. Loans will be provided to enable them to establish themselves in the great industry of agriculture, thus contributing to its expansion and sound development.

Of much interest and worthy of special comment is the creation of four continuing select committees of the Assembly. One of these committees will investigate, with the widest terms of reference, the problems of lake shore erosion and Great Lakes water levels. Another will keep under constant review the administration of rent control procedures and the results flowing from that administration. A third committee will examine carefully into the framing of a completely revised Companies Act. The fourth committee will examine the election laws of the Province with a view to the recommendation of any further improvements that may be advisable.

A measure of very great importance, the first of its kind in Canada, has been brought into our law. Assistance will be provided by the Province to those of our citizens between the ages of eighteen and sixty-five who are totally and permanently disabled, and who are unable to provide adequately for themselves, or who are not otherwise provided for. This is a great forward step in caring for our deserving and needy citizens.

The need of this great Province for power will be answered in large measure by the development of the tremendous resources of the St. Lawrence River. Legislation has been passed under which The Hydro-Electric Power Commission of Ontario is authorized to undertake jointly with an appropriate authority in the United States, the development of the International Rapids section of that great river. This legislation ratifies an agreement between the Province and the Federal Government in relation to that development, and which is related as well to the construction of the

St. Lawrence Seaway. It is hoped and most strongly urged that the development of that seaway will be undertaken at the earliest possible date.

Long forward steps have been taken in the improvement of provincial municipal relations. Among those steps is legislation under which the Province and its Commissions will pay to the several municipalities concerned amounts equivalent to normal municipal taxes upon the various business and administrative premises owned by the Province and by its Commissions. A further step of great importance is a measure under which the provision of financial assistance to municipalities within the major mining areas of the Province is improved and increased. The basis of this assistance is made sound and permanent.

Provision has also been made for expansion and improvement of our great highway system. Especially important are plans which are related to the improvement of highway conditions more closely connected with the traffic problems of our larger urban centres.

For the greater benefit of our people in relation to the conservation of our forests the legislation affecting forest matters has been completely revised and consolidated. Under our new Crown Timber Act provisions are made under which the ultimate goal of fully sustained yield will be brought closer by greater control of forest practices. Ontario is maintaining its lead in forestry reform.

Legislation has been approved under which, in certain cases, persons may bring action against the Crown represented by the Province of Ontario without Her Majesty's consent first obtained.

Many other measures have been passed which tend toward the betterment of our people. Progressive improvements have been provided in many fields. Among these fields are those related to the education of our children, the distribution and sale of agricultural products, the conservation of fish and game and of our other natural resources, the rehabilitation of prisoners, the administration of justice, the administration of public welfare and the improvement of public health.

Among other matters which have had your attention are those requiring the approval of Private Bills. In twenty-eight cases the proposals of those concerned have received your sanction.

Satisfactory and adequate provision for the ensuing year has been made for the financial requirements of the government. The fiscal requirements have again increased and are higher than ever before. Through careful implementation of sound policies it is, nevertheless, not necessary to impose new or increased taxation. In fact some small reductions in taxation have been possible. Increased funds are being devoted to the various fields of public welfare and of public health, as well as to the assistance of municipalities. Hospitals have received larger benefits. It is gratifying to know that the well-founded financial condition of our Province is preserved and secure.

I wish to thank you for the appropriation of public funds for these and other purposes. I am confident that under the guidance of Divine Providence, the well-being and security of the people of our Province will be strengthened. May I thank you also for your diligent and loyal services as legislators."

The Provincial Secretary then said:

"Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued."

TORONTO, March 17th, 1952.

The Honourable the Lieutenant-Governor entered the Chamber on Monday, March 17th, 1952, and took his seat on the Throne.

Mr. Speaker addressed His Honour as follows:

"May it please Your Honour:

The Legislative Assembly of the Province has at its present Sittings thereof passed several Bills to which, in the name and on behalf of the said Legislative Assembly, I respectfully request your Honour's Assent."

The Clerk Assistant then read the titles of the Bills that had passed severally as follows:

"The following are the Titles of the Bills to which Your Honour's Assent is prayed:

Bill No. 1, An Act respecting the Town of New Toronto.

Bill No. 2, An Act respecting the City of Sarnia Separate School Board.

Bill No. 19, An Act respecting St. Patrick's Home of Ottawa.

Bill No. 28, An Act respecting the Canadian National Exhibition Association.

Bill No. 31, An Act respecting Credit Foncier Franco-Canadien.

Bill No. 73, An Act to provide for the making of Inquiries in connection with Hospitals, Sanatoria, Charitable Institutions and other Organizations."

To these Acts the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"In Her Majesty's name, the Honourable the Lieutenant-Governor of the Province doth assent to these Bills."

The Honourable the Lieutenant-Governor was then pleased to retire.

ALEX. C. LEWIS, Q.C.,
Clerk of the Legislative Assembly
Of Ontario.

5. In any year the Minister may reduce any payment to an amount not less than would result in more than 50 per cent of the total of the amounts required for the purposes of the municipality and of all its local boards being raised by the imposition, rating and levying of all rates, assessments and taxation upon rateable property within the municipality in that year.

6. In any year the amount of a payment computed in accordance with regulation 4 is less than the total of the mines profits tax that would be collectible if the municipality were not designated as a mining municipality and the amount the municipality could reasonably expect under a special-grant scheme of Ontario, the Minister may increase the payment to an amount not greater than would result in less than 50 per cent of the total of the amounts required for the purposes of the municipality and all of its local boards being raised by the imposition, rating and levying of all rates, assessments and taxation upon rateable property within the municipality in that year.

INSTRUCTIONS

1. The morbid conditions relating to death are divided into two parts. In Part I are those conditions causally related to the "IMMEDIATE CAUSE" and in Part II those not causally related thereto. In most cases the completion of Part I will be sufficient. Detailed certification is not required, the entry of a single cause being preferable in cases where a single cause is sufficient, as in Example I. Where the person completing the certificate finds it necessary to record more than one cause, it is important that they be stated in the position provided on the form as indicative of their mutual relationship.
2. Follow these instructions:
- (a) name first the "Immediate Cause" of death, i.e., the disease, injury or complication which caused death (not mode of dying or terminal condition);

(b) then give the other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship stating the most recent one first and then the others in order;

(c) Part II is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone;

(d) use accepted terms for morbid conditions and never record mere symptoms;

(e) maternal deaths—qualify all diseases resulting from childbirth, miscarriage or abortion by the word "puerperal", for example, puerperal septicaemia; distinguish between septicaemia originating in abortion and in child-birth;

(f) cancer—specify the organ or first part affected;

(g) violent deaths—where a death was due to a violent cause, the person completing the medical certificate shall indicate clearly whether the death was due to accident, suicide or homicide, and the manner and nature of the injury which resulted in death; where the death was due to accident the circumstances shall be stated as fully as possible, for example, an automobile accident shall always be designated as such.
